

17 July 2017

Dear Sirs,

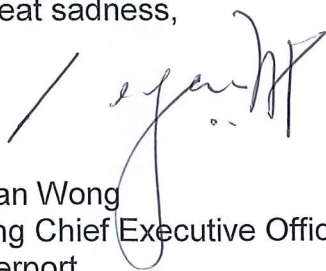

It is with great sadness for us to inform you the heart-breaking news that our Chief Operating Officer Mr Mark O. Clift passed away on 16 July 2017.

Mark was a valued member of Cyberport. He joined us in 2003 as Chief Operating Officer taking charge of all aspects of Campus Development and Management of Cyberport, The Arcade, and our hotel Le Meridien Cyberport. Over the past 14 years, he led a professional team to build Cyberport into an innovative and creative hub in Hong Kong. Back in 2009, Mark pioneered the opening of the first Smart-Space in Cyberport, which was probably the first co-working space in Hong Kong and has been playing an important role in facilitating technology start-ups. Under his outstanding management, Cyberport has grown into a vibrant innovative ecosystem, connecting technology companies and talents near and far.

Mark was such a great leader. He was highly regarded by everyone who had ever worked with or met him. Mark's departure is truly a great loss to Cyberport as well as to our community. He will be deeply missed by everyone.

No words can express our sadness about the loss of Mark or our gratitude for the opportunity to work with him. In memory of Mark, a condolence corner is set up on L4, Cyberport 2 (near the Cyberport model) to pay tribute to Mark. We welcome you to pen a condolence message to his family or share your thoughts and memories.

In great sadness,

Pagan Wong  
Acting Chief Executive Officer  
Cyberport
