

Challenges did not hold us back, but instead allowed us to show our agile response.

面对持续演变的不稳定状况，数码港迅速采取适切的应变措施，协助初创社群。

2019/20 proved to be an eventful year for Hong Kong's innovation and technology (I&T) sector. Local and global events presented major challenges to us and our community on various fronts. These challenges did not hold us back, but instead allowed us to show our agile response. We were among the first organisations to announce rental concessions in September 2019 amidst the social unrest, as well as to launch the Braving the Epidemic campaign in February 2020 applying digital technology to help the society weather the epidemic.

Our community of over 1,500 start-ups and technology companies are always mindful of their growing responsibility to society. Soon after the outbreak of COVID-19, Cyberport's start-ups and alumni of the incubation programme quickly mobilised a host of

solutions, leveraging their own expert areas, to help Hong Kong's individuals, frontline medical staff, businesses, SMEs, and government services cope with the challenges. We then curated the most impactful and ingenious solutions under the Braving the Epidemic campaign on the iStartup Portal, providing a one-stop destination to help the public and businesses find solutions to their daily problems. GOGOx, Pickupp, and Toby, for example, offered their logistics networks to facilitate the delivery of COVID-19 test specimens to government labs for people under quarantine; HKDecoman assembled a team of handymen to help public housing tenants inspect their drainage pipes for free; OneDegree and Bowtie offered their pioneering virtual insurance services to cover frontline workers involved in anti-epidemic activities free of charge. Over

60 of these solutions covering areas from infection prevention and medical services, to household cleaning, property management, insurance, and education were listed on the platform, garnering positive reception.

Beyond swiftly establishing a series of stringent anti-epidemic measures to safeguard the health of our staff and community members, Cyberport actively supported the anti-epidemic initiatives of different industry organisations. These included the distribution of face masks and hand sanitisers on campus with the Hong Kong Information Technology Joint Council and the Internet Professional Association, as well as the production of 3D printed face masks and hand sanitisers with community members IOT Solution and Bowtie respectively.

2019/2020绝对是充满变化的一年，并同为香港的创新科技发展带来重重挑战。本地和全球的众多事件，难免窒碍数码港履行公众使命。然而，面对持续演变的不稳定状况，数码港迅速采取适切的应变措施，协助初创社群。数码港是首批于2019年9月宣布租金宽减措施的机构，亦早于2020年2月推出“敢创抗疫”行动，透过数码科技方案协助社会各界对抗疫情。

数码港社群的1,500多家初创企业和科技公司心系香港，回馈社会。在新型冠状病毒疫情爆发之初，数码港初企

业和毕业公司迅速策动创新方案，灵活运用各自专业领域以帮助广大市民、前线医护人员、企业、中小企业和政府部门共渡难关。数码港“敢创抗疫”行动，把社群中适用于抗疫且具影响力的创新方案网罗于“iStartup Portal”网站，一站式为市民和企业提供方案，解决疫情期间的日常问题。例如GOGOx、Pickupp和Toby提供物流网络，协助接受检疫隔离人士把新型冠状病毒测试样本，运送到政府实验室化验；另一家数码港初企“装修佬”，则号召一队小型维修团队，免费帮助公共屋邨居民检查喉管。OneDegree和保泰人寿作为虚拟保险服务

先驱，亦率先为防疫工作的前线人员，免费提供从事抗疫活动的相关保障。平台罗列超过60多个方案，涵盖预防感染、医疗服务、家居清洁、物业管理、保险及教育等多个领域，好评如潮。

数码港除了建立一系列严谨的防疫措施以保障员工及社群成员的健康外，更积极支援不同行业组织的抗疫活动，当中包括联同香港资讯科技联会及互联网专业协会，于数码港园区派发口罩及酒精搓手液，以及与社群成员IOT Solution和保泰人寿分别制作3D立体打印口罩及搓手液。

At the same time, with the global shift towards accelerated digital transformation, we stepped up our efforts to line up traditional enterprises with start-up solutions through the Cyberport Enterprise Network (CEN) and completed more investments in promising start-ups through the Cyberport Macro Fund (CMF) to demonstrate our unwavering faith in their potential, drawing significant co-investments.

In the face of major difficulties, Cyberport remained steadfast in our commitment to Hong Kong's I&T development, overcoming new challenges and embracing new opportunities through digital technology as we continue to navigate the new normal.

Enhancement in talent cultivation and development

Assisting the community during this epidemic did not slow down our efforts in talent development, our comprehensive suite of talent cultivation and development programmes continued to attract talented individuals who wish to pursue aspirations in digital innovation, employment, and entrepreneurship.

Our Cyberport Creative Micro Fund (CCMF), which offers seed funding for prototype development, admitted 98 applicants, with a strong presence of projects in FinTech, smart living, and AI & big data. CCMF's newly expanded Cyberport Greater Bay Area Young Entrepreneurship Programme (GBA YEP)

extended its coverage from Hong Kong and Guangdong to include Macau and potentially other GBA cities, attracted 300 applications, a more than 30 percent increase from last year.

Meanwhile, youth seeking hands-on experience in innovation and technology also continued to grow in numbers. To accommodate this, we broadened our partnership with 171 companies to offer internship positions and technology training in FinTech, digital entertainment and esports, and smart living to 358 participants, 68 per cent more than the year before. We will continue to offer more opportunities to enrich the I&T experience of the younger generation in the coming year.

同时，随着全球加速迈向数码转型，数码港亦透过“数码港企业网络”，积极连系传统企业和初创公司；亦藉着“数码港投资创业基金”，为具发展潜力的初创公司引入更多共同投资，进一步体现数码港作为初创企业的强大后盾，为他们注入关键性的支援。

尽管面对重重难关，数码港坚定不移，致力推动香港的创新科技发展，以数码科技作为我们在新常态下的导航，引领各界跨越新挑战，迎接新机遇。

人才培育 成就发展

除了在疫情期间为创科社群提供適切协助，数码港亦不忘积极培育人才。2019/20年度，我们一如以往提供全面的人才培育和发展计划，为有志在创新科技界发展，以及创业的人才，提供一系列的支援。

“数码港创意微型基金”为创新者提供种子基金以开发产品雏型，去年批出98个金融科技、智能生活和人工智能及大数据方面的项目申请。此外，“数码港

创意微型基金”最新推出的“数码港大湾区青年创业计划”，已由香港及广东省扩展至澳门，以及其他大湾区城市，吸引逾300份申请，比去年增加超过30%。

年青人寻求创科实战经验的需求殷切，数码港广揽171家公司为合作伙伴，为358名参加者提供实习职位及技术培训，范畴涵盖金融科技、数码娱乐及电竞和智能生活等，按年增加68%。我们期望来年为年轻人提供更丰富的创科工作体验。

This year's Career Fair was launched with a digital twist. For the first time, the event was held in a virtually constructed environment to simulate a physical exhibition and was met with record breaking numbers. More than 130 start-ups and companies participated in the fair, offering over 800 job openings, attracting nearly 3,300 job seekers and more than 12,000 applications. The outcome attested to the strong demand for I&T related employment opportunities and the unabated confidence in I&T despite economic uncertainty.

Cyberport's flagship programmes to nurture start-ups continued to generate extensive interest. The Cyberport Incubation Programme (CIP),

with an increased intake of 130 from 100, attracted over 600 applications, ranging from management-level talent at multinational banks to cream-of-the-crop graduates in Hong Kong's top institutions. Applicants also came from a variety of more countries, including Israel, Singapore, and more, with a view of capitalising on Cyberport's strategic proximity and networks with markets in Greater China and APAC regions and as much as HK\$500,000 in financial assistance provided by the programme. Over half of the successful projects belonged to the FinTech and smart living clusters, with innovative ideas ranging from virtual bank and virtual insurance licensees, wealth management and cybersecurity to 5G robotics, Internet of Things (IoT) and GreenTech, etc.

In addition, the Cyberport Accelerator Support Programme (CASP) added 13 new accelerator programmes from Bangkok, Mainland China, the US, Sweden, and more, to the list of endorsed accelerators, in which participating start-ups can receive as much as HK\$300,000 in financial assistance to take part. Among the 57 programmes on the list are some of the world's top accelerators for new ventures, such as Accenture Fintech Innovation Lab Asia Pacific, Founder Institute Silicon Valley Accelerator, and Lotte Accelerator. Mizuho Crowd Brain powered by Eureka Nova, one of the new additions to the list, accepted nine Cyberport companies in its first cohort, of which two teams were named on the Forbes 30 under 30 Asia list for 2020, demonstrating how the combined efforts of Cyberport and members of its comprehensive ecosystem are able to propel Hong Kong's start-ups to success.

Meanwhile, the Overseas/Mainland Market Development Support Scheme (MDSS) approved 38 applications. Since its launch in November 2018, MDSS has provided HK\$2.15 million to support 51 start-ups to attend 97 events and exhibitions, join delegation missions, or take part in landing services. Many of the scheme's recipients saw their businesses expand to markets such as Singapore, London, Taiwan, and many cities on Mainland China during the 2019/20 fiscal year.

当中不乏针对新型企业的全球顶尖加速器，例如埃森哲亚太区金融科技创新实验室，Founder Institute硅谷加速器及韩国乐天加速器。最新加盟的成员有由Eureka Nova支持的日本瑞穗银行加速器计划。首阶段接受九家数码港公司的申请，其中两家初创企业更于2020年名列福布斯亚洲年轻领袖榜，足证在数码港及社群成员共同努力下，成功建立完善的生态系统，推动香港初创迈向成功。

自2018年11月推出以来，“海外及内地市场推广计划”批核38个申请，合共提供215万港元，支持51家初创企业出席97个活动及展览、参与代表团及使用新市场软着陆计划等。在2019/20年间，不少参与计划的初创企业，成功将业务扩展至新加坡、伦敦、台湾及内地等不同市场。

今年“数码港招聘博览”首次以虚拟互动平台形式举行，成绩更破历届纪录，有130多家初创企业和公司参与，提供超过800个职位空缺，吸引超过3,300名求职者及收到超过12,000份申请。活动成绩斐然，足证经济尽管存在不稳定性，但创科前景持续向好，就业需求庞大。

数码港多个培育初创企业的旗舰项目继续备受关注。“数码港培育计划”的名额由100个增加至130个，申请人涵盖跨国银行的管理层以至本地学术机构毕业生，吸引超过600份申请。申请人同时来自五湖四海，包括以色列和新加坡

等不同国家，他们均被数码港汇聚大中华及亚太地区的策略性优势及网络所吸引，当中包括计划所提供的50万港元资金。数码港社群近一半的杰出创业项目来自金融科技及智能生活应用范畴，他们的创新意念涵盖持牌虚拟银行及虚拟保险公司、财富管理和网络安全；以至5G机器人、物联网及环保科技等。

此外，“数码港加速器支援计划”新增了来自曼谷、中国内地、美国及瑞典等多个不同国家的13个加速器计划，参与的初创企业可获得高达30万港元的资助。计划目前涵盖57个加速器计划，

Accelerated digital transformation across industries also meant more people are demanding critical digital skills and credentials. To this end, Cyberport's new initiative, Cyberport Academy, offers an open platform to engage top technology, private, and academic institutions and to provide quality technology and entrepreneurial training to youth and industry practitioners from different sectors. One example is the Cyberport Financial Practitioners FinTech Training Programme that was launched in March. Cyberport was entrusted by the HKSAR Government to design and implement a programme to enrich Hong Kong's FinTech talent pool, promote the adoption of FinTech by financial institutions, and speed up digital transformation of the financial sector. The Programme has been enthusiastically embraced by industry practitioners and we expect to receive ongoing registration from over 2,000 participants for 32 training sessions primarily virtually by the end of 2020.

Boosting industry development

Over the years, Cyberport has established a solid foundation in the development of its main digital technology clusters, which are FinTech, smart living, and digital entertainment

各大行业正全面加速数码转型，意味着更多人才须具备最新及具认证性的数码技能。有见及此，我们创立“数码港学院”，构建开放平台，与顶尖科技、私人及学术机构协作，为青年和不同行业的从业员提供优质的科技和创业培训。特区政府更委托数码港于3月推出“数码港金融从业员金融科技培训计划”，以丰富香港的金融科技人才库及鼓励金融机构采用金融科技，加快金融业的数码转型步伐。计划受到业界热烈欢迎，预计将持续获得超过2,000名参加者报名，于2020年底前可举办超过32场培训。

行业发展 驱动增长

经过多年发展，数码港为多个主要数码科技应用范畴建立巩固的基础，包括金融科技、智能生活、数码娱乐及电竞。过去一年，数码港进一步聚焦于这几个群组，让行业达致更强大及具影响力的发展。在金融科技，数码港社群已

and esports. In the past year, Cyberport has further focused its efforts within these clusters to achieve deeper and more impactful progress. In FinTech, the Cyberport community reached milestones in InsurTech and virtual banking, while in smart living, IoT applications took the centre stage in preparation of the onset of 5G, exemplified by the arrival of the AWS IoT Solution Lab under the Easy Landing Scheme. Cyberport also announced its commitment to developing the esports industry, while leveraging the latest advancements in VR and AR technology in the development of the digital entertainment industry.

FinTech

In 2019/20, our FinTech cluster expanded to house nearly 400 companies, making Cyberport the largest FinTech community in Hong Kong. These

companies specialise in an ever-growing range of businesses, from financial services and data analytics for issues such as Environmental, Social, and Governance (ESG) to wealth management and cross-border payments, and from virtual banking and virtual insurance to RegTech and digital assets, with exciting new developments continually emerging from this community. A highlight is the granting of virtual insurance license to three more of our community members including AVO, OneDegree, and ZA International, on top of Bowtie, making Cyberport home to all of the virtual insurers in Hong Kong as of today.

To open new avenues for growth and opportunities and to enable our remarkable FinTech start-ups to make a bigger impact internationally, we organised a delegation led by the

Cyberport Community Companies
数码港社群公司
Virtual Banking License Recipients
获发虚拟银行牌照企业

WeLab Bank ZA Bank

Cyberport Community Companies
数码港社群公司

获发虚拟保险牌照企业

avo bowtie OneDegree ZA Insure

于保险科技及虚拟银行立下了里程碑；而智能生活及物联网的应用，亦随着5G而准备进入发展核心，例如通过“易着陆”计划落户数码港的AWS IoT Solution Lab便是最佳的说明。数码港亦同时展现对发展电竞行业的强大决心，积极投入及利用最新VR及AR科技以促进数码娱乐发展。

金融科技

2019/20年度，数码港金融科技社群增至近400家公司，使数码港成为全港最大的金融科技社群。多家企业的业

务推陈出新，从环境、社会及企业管治(ESG)、财富管理和跨境支付相关的金融服务和数据分析，到虚拟银行、虚拟保险、监管科技及数码资产，社群成员的崭新发展令人鼓舞。值得一提的是继保泰人寿，另外三家社群成员一安我保险、OneDegree和众安国际亦获发虚拟保险牌照，进一步确立数码港作为香港虚拟保险大本营的地位。

为协助杰出的金融科技初创企业开辟新机遇，于国际舞台发挥所长，数码港除邀得财政司司长陈茂波先生率领代表团

Financial Secretary, Mr Paul Chan, to London, and took part in FinTech Taipei 2019 and Singapore FinTech Festival. Locally, we joined the Hong Kong FinTech Week and the Asian Financial Forum, showcasing our start-ups' leading solutions and helping them build connections to technology, smart money, risk capital, markets, and talent.

Smart Living

Solutions and innovations from our smart living start-ups, which are growing in scale and scope, are increasingly being adopted by individuals, enterprises, and industries. As cases in point, Roborn's temperature monitoring robots have been deployed by multiple government departments to aid its anti-epidemic efforts; ubiZense's IoT-Augmented Airfield Service System has been adopted by Airport Authority Hong Kong to enhance the management of Hong Kong's world-class airport, while Gogochart's AI app marketing platform and GRWTH's EdTech platform have found demand with marketers, schools, students, and parents.

Many of these solutions have also been adopted by Cyberport in their early stage to gain necessary operation

前往伦敦，亦参加“2019年台北金融科技展”和“新加坡金融科技周”。在本地，数码港亦积极参与“香港金融科技周”和“亚洲金融论坛”，展示初创企业的领先方案，协助他们连系市场最新科技、智慧资本、风险资金，以及行业人才。

智慧生活

数码港的智慧生活初创社群日渐壮大，其创新方案亦越趋普及，广受市民大众、企业和业界采用。例如，路邦的体温检测机器人已被多个政府部门应用于防疫工作；ubiZense的物联网强化飞行区管理系统，获香港机场管理局采用，助香港机场保持世界顶级的管理水平；Gogochart的人工智能营销平台应用程序，以及GRWTH的教育科技平台更分别满足市场策划人员、以及学校、学生和家长的需。

数码港积极采用仍处于早期发展阶段的初创新方案，让初创在正式发布前获得宝贵的实战经验。数码港办公室

experience before commercial launch. The Cyberport office has adopted a number of these solutions to increase office efficiency. In the Arcade, a smart toilet that utilises digital solutions from four different start-ups has been made available to offer real-time feedback, greatly improving the efficiency of facilities management. The introduction of the AWS IoT Solution Lab under the Easy Landing Scheme will also offer a new space to showcase IoT-enabled smart living solutions by local start-ups built on AWS's cloud technology platform. With the onset of 5G technology, we look forward to more technologies from Cyberport start-ups that will make our city smarter and more sustainable.

Digital Entertainment & Esports

Cyberport's efforts to develop Hong Kong's esports ecosystem shifted into high gear in July 2019, when we

采用了多个由初创开发的智能解决方案以提高办公室效率。另外，数码港商场的Smart Toilet也运用了四家初创企业的数码解决方案，提供实时反馈，从而大大提升设施管理效率。Amazon Web Services (AWS) 通过“易着陆”计划落户数码港的AWS IoT Solution Lab将提供一个全新的空间，展示本地初创公司于AWS云端运算平台所开发的物联网智能生活方案。5G科技如箭在弦，数码港期待更多初创所研发的创新科技，重塑一个更具智慧及可持续性的城市。

数码娱乐及电竞

2019年7月，随着大众引颈以待的电竞场地隆重开幕，数码港全面展开香

opened the highly anticipated esports venue to boost local competitions, unveiled a series of events to galvanise engagement, and launched programmes to drive industry development and talent cultivation. Our goals are to forge a new industry for Hong Kong that will offer new prospects for the youth.

Our initiatives were well received, with the Digital Entertainment Leadership Forum (DELFL) attracting more than 700 participants who came to learn from over 40 speakers from nine different economies, including Hong Kong, the UK, Germany, Israel, Korea, Japan, Thailand, Singapore, and Malaysia, on the business opportunities and career prospects of this fast-growing industry. The DELFL main forum was immediately followed by Asia's first Blockchain Gamer Connects summit, connecting mobile game market players with the blockchain industry. Meanwhile,

港电竞生态圈的发展工作，促进本地竞赛。我们同时举办一系列活动带动更多市民和业界参与，并推出相应计划，推动行业发展和人才培育，目标是香港打造一个产业链，实现年青人的发展前景。

数码港多个计划亦广受好评，“数码娱乐领袖论坛”吸引超过700名参加者，并由来自九个不同经济体包括香港、英国、德国、以色列、韩国、日本、泰国、新加坡，以及马来西亚的40多位演讲嘉宾，分享这高速增长行业的无限商机和就业前景。紧接“数码娱乐领袖论坛”的是亚洲首个“BGC全球区块链游戏大会”，连系手机游戏玩家及区块链业界。

the Esports Industry Facilitation Scheme received over 80 applications and began supporting local events and competitions, with a number of them held in the brand new Cyberport esports venue, as well as talent cultivation and training courses to develop the next generation of esports professionals for Hong Kong. The Esports Internship Scheme gave the young people interested in esports an opportunity to gain hands-on experience by subsidising nearly 20 internships in 10 companies. Many young entrepreneurs also submitted innovative projects targeting various segments of the esports value chain to CCMF and CIP, and we expect that their enthusiastic participation will contribute massively to our endeavours. We also set up the new CyberLab next to the esports venue at the Arcade to showcase innovative solutions from the cluster.

Integration of new and traditional economies

The epidemic has accelerated digital transformation in various sectors, creating unprecedented demand in fields such as RetailTech, HealthTech, and EdTech, among others. In light of this, Cyberport continues to champion the integration of new and traditional economies by fostering collaboration between start-ups and traditional enterprises and by sharing knowledge and ideas. In

另外，“电竞行业支援计划”目前收到超过80份申请，支持本地活动和赛事，当中多场活动均于数码港的全新电竞场地举行。计划亦包括人才培育和培训课程，以发掘及培植香港新一代电竞专业人士。同时，“电竞实习支援计划”补贴10家公司近20个实习职位，让有意投身电竞的年轻人获得实战经验。众多年青创业者亦透过“数码港创意微型基金”和“数码港培育计划”提交电竞产业链多个领域的创新项目，他们的创业热忱势将为数码港的产业发展工作注入无比动力。此外，数码港在电竞场地旁边增设 CyberLab，以展示社群内的创新数码娱乐及电竞方案。

新旧经济 无缝融合

疫情加剧了各个界别的数码转型步伐，亦为零售科技、医疗科技及教育科技等高增长范畴带来强大需求。有见及

2019/20, we strengthened the Cyberport Enterprise Network (CEN) to connect start-ups and enterprises to expedite digital transformation of industries and offer additional business opportunities to start-ups and technology companies. During the year, we consolidated the CEN membership with enterprises and industry associations from an array of industries. CEN arranged 35 business matching sessions for 136 start-ups, and nearly a dozen projects have since progressed to deals or advanced discussions. These projects range from blockchain applications for a construction and engineering company, to AI solutions for a major local airline.

Recognising that public services is seeking digital transformation, we launched new initiatives to facilitate start-ups to contribute their solutions. We connected more than ten digital technology solutions to the Electrical and

Mechanical Services Department's E&M InnoPortal for public services solution matching, with solutions in robotics and electric vehicle (EV) charging already engaged by government departments. The Smart Government Innovation Lab was also officially launched in Cyberport this year to provide a platform for encouraging innovative solutions to address public service delivery and operational needs.

Cyberport also continued to inspire and inform the public and the business community about the prospects of digital technology to stimulate adoption. We held the annual Internet Economy Summit (IES) with an attendance of around 3,000, who came to listen to over 70 speakers under the theme, "Digital Economy - Redefines Our Future".

In addition, we enhanced our efforts to foster corporate engagement

此，数码港将继续促进初创与传统企业的协作，共享创新意念，以融合新型与传统经济。2019/20年度，我们扩大“数码港企业网络”，深化初创与企业的联系，为初创企业及科技公司带动更多商机，并加快不同行业的数码转型。年内，“数码港企业网络”整合来自多个行业的企业和组织成员，并为136家初创企业安排35场业务配对环节，造就十多个项目达成交易或进行后续商讨，包括为建筑及工程公司提供区块链应用，以至为本地大型航空公司提供人工智能方案。

各类公共服务锐意数码转型，数码港引进多个新计划，促进初创企业提供方案。我们将十多个数码科技解决方案上载

到机电工程署机电创科网上平台，促成公共服务方案配对，部分政府部门更已采用当中的机器人和电动车充电方案。智慧政府创新实验室亦于今年在数码港正式启动，为推动切合公共服务及运作需要的创新解决方案，提供所需平台。

数码港一直致力启发公众及商界，了解数码科技前景，并推广数码科技的普及应用。由数码港举办的年度旗舰活动“互联网经济峰会”，吸引3,000人次参与，听取超过70位演讲嘉宾分享就“数字经济·缔造未来”的真知灼见。

此外，数码港着力促进企业参与创新。于“数码港创业投资论坛”，我们

in innovation. At the Cyberport Venture Capital Forum (CVCF), we invited over 40 speakers from Hong Kong, Mainland China, Spain, Israel, Thailand, Macau, and the US, to highlight corporate venture as a means to expand investor outreach, boost corporate investment, and galvanise corporate I&T participation. The event was warmly received by a record turnout of over 900 attendees and more than 200 investors, up 20 per cent and 29 per cent on the year respectively. Over 200 investor matching meetings were held, an increase of 33 per cent, to further bridge funding gaps for the start-ups.

Our new three-year plan

The coming year will spell the beginning of our new three-year plan to further bolster our capacities in developing Hong Kong's I&T sector. We will enhance our ecosystem development and stakeholder engagement, via strengthening our Cyberport Investors Network (CIN), Cyberport Enterprise Network (CEN) and Cyberport Technology Network (CTN); upgrade services infrastructure to include a data services platform and campus management system which will enhance our service provided to start-ups and operations on campus; and enrich our campus infrastructure enabled by smart campus.

邀请了分别来自香港、中国内地、西班牙、以色列、泰国、澳门和美国的40多位讲者，重点介绍企业创投，以拓展投资者网络、促进企业投资及鼓励企业参与创新科技发展。活动破纪录吸引超过900名参加者和200多名投资者，按年分别增加20%和29%。论坛更举行200多场投资者配对，增长达33%，助初创发掘投资机会。

三年计划 引领未来

来年标志着数码港新三年计划的开始，进一步展现我们发展香港创科的能力。我们将透过拓展“数码港投资者网络”、“数码港企业网络”和“数码港科技网络”，巩固生态圈的发展和持份者的参与；亦将提升服务基础建设，包括数据服务平台和园区管理系统，进一步完善我们为社群初创提供的服务和园区的营运；并通过建立智慧园区以丰富园区的

At the same time, we will continue to strengthen our efforts in talent cultivation and development, industry development, and integrating new and traditional economies to fulfil our aspirations to be the digital technology hub of Hong Kong.

We will also continue to bring the Cyberport expansion in development to fruition. The HK\$5.5 billion provided to the project, as announced in the 2019-20 Budget by the Financial Secretary, demonstrates the strong support and confidence from the government towards Cyberport's work thus far. Beyond providing new offices and dedicated facilities for industry events or exhibitions, the expansion will provide space to nurture more talent and showcase Cyberport's innovations in digital technology. It will also provide the perfect opportunity for further integration with the neighbourhood to offer leisure

基础设施。同时，我们将继续增强人才培育、行业发展，以及新旧经济融合的工作，以持续达到我们作为香港数码科技枢纽的愿景。

我们将继续发展数码港以取得更丰硕的成果。财政司司长在2019-20年度财政预算案中宣布拨款55亿港元予数码港，可见政府对数码港一直以来的工作表示坚定的支持和信心。数码港的扩建不单为业界提供更多办公室以及举办活动及展览的专用设施，更重要是创造更广阔空间去培育人才和展示数码港在推动创新数码科技发展的决心。扩建后的数码港，将提供一个与邻里进一步融合

facilities applying the latest digital technologies and benefit the community as a whole.

I would like to take this opportunity to thank the HKSAR Government and our Board of Directors for their unwavering support and guidance to Cyberport; to our stakeholders, including start-ups, technology companies, corporate partners, and industry organisations for their commitment, resilience, and can-do spirit demonstrated during what has been a difficult year. I would also like to thank all of my colleagues for their hard work, agility, resourcefulness, and persistence in pursuing our common goals amidst the challenges in 2019/20. Last but not least, I invite you all to join us as we work together to overcome new challenges, seize new opportunities, and flourish in the new normal to create a brighter future for the I&T industry.

的绝佳平台，以数码科技应用于休闲设施，造福整个社区。

藉此机会，我衷心感谢特区政府及董事局对数码港的支持和指导，以及所有持份者，包括一众初创企业、科技公司、企业伙伴和行业组织，于去年迎难而上，展现出投入、韧劲和“事在人为”的决心。我亦感谢一众团队同事在这充满挑战的2019/20年内，仍时刻表现勤奋、灵活、睿智及坚毅的工作抱负，与我们昂首迈向共同目标。最后，我诚邀您们与数码港群策群力，携手克服挑战、探索机遇，让我们在新常态下大放异彩，为创新科技缔造更耀眼的未来。
