Cyberport start-ups score 14 wins at the FinTech Awards 2018

Hong Kong, 6 March 2019 – Cyberport's FinTech community, the largest in Hong Kong, has won industry recognition again. At the FinTech Awards 2018 presentation ceremony today, 14 Cyberport FinTech companies and new economy start-ups claimed 14 awards across nine categories, including insurance, consumer payments initiative, wealth investment and management, lending, FX/payment solutions, artificial intelligence, blockchain solutions, cybersecurity/anti-fraud, and "universities". The awards, organised by ET Net and which Cyberport was one of the co-organisers, recognise exemplary FinTech innovations in Hong Kong and the Greater Bay Area. This year's competition received close to 100 entries, and the 45 winners were selected by a panel of judges among a bevy of highly competitive contenders.

Peter Yan, CEO of Cyberport, said: "It is heartening to see Cyberport's FinTech companies and start-ups accomplish such remarkable results at the FinTech Awards 2018 and that their innovations span such a wide range of FinTech domains. The awards are a recognition of the innovative spirit and work of the winners; they are also an acknowledgement of Cyberport's achievements in promoting FinTech development and in nurturing talent for the digital tech industry."

Mr Yan added: "The companies in Cyberport's FinTech community are working on a host of areas that include InsurTech, virtual banking and RegTech. As Hong Kong's FinTech hub, Cyberport is dedicated to promoting the integration of the traditional and new economies. We will continue to strengthen our cooperation with local and international financial industry partners, regulators and stakeholders to springboard Hong Kong's FinTech and new economy companies to Asia and other markets across the world, and to inject impetus into Hong Kong's new economy development."

The judging panel of the FinTech Awards 2018 was formed by professionals of the FinTech and ICT industry and consisted of members from relevant industry and professional associations, companies, educational institutions, and government bodies. The winners were selected based on five judging criteria, including innovation and creativity, functionality, marketability, benefits, and impact.

About Cyberport

Cyberport is an innovative digital community with over 1,200 technology companies. It is managed by Hong Kong Cyberport Management Company Limited, which is wholly owned by the Hong Kong SAR Government. With the vision to become a main force in developing the digital tech industry as a key economic driver of Hong Kong, Cyberport is committed to nurturing youth, start-ups and entrepreneurs to grow in the digital industry by connecting them to strategic partners and investors, driving collaboration with local and international business partners to create new opportunities, and accelerating digital adoption amongst corporates and SMEs.

Cyberport focuses on building five key clusters of digital tech, namely E-sports/digital entertainment, FinTech, AI/big data, smart city/smart living, and blockchain solutions, to foster the development of Hong Kong into a “Smart City”. With a committed team of professionals providing all rounded value added services to support our digital community and an array of state-of-the-art tech facilities, Cyberport is the flagship for Hong Kong's digital tech industry.
