Cyberport’s fruitful achievements are attributed to the guidance and support of the Board of Directors over the years, as well as the concerted efforts of colleagues at all levels. I am deeply grateful for this. As Cyberport embarks on a new milestone, we will build upon the foundation laid over the past twenty years to lead Hong Kong towards a smart future. We look forward to the completion of the new building in the fifth phase by 2025, which will bring in more high-potential enterprises and jointly promote the flourishing development of the digital economy.

Riding on the drive for high-quality development fuelled by innovation at the national level, this year marks the tenth anniversary of the “Belt and Road” initiative. The interconnected development of the regional socio-economic landscape has become the core engine of global development. Cyberport will continue to strengthen collaboration with the Mainland, supporting start-ups to integrate into the national development agenda and the Greater Bay Area construction, contributing to the high-quality development of the country through technological innovation. Leveraging Hong Kong’s international advantages, we will expand global cooperation in innovation and technology, leading start-ups to seize development opportunities in the “Belt and Road” initiative, RCEP (Regional Comprehensive Economic Partnership), the ASEAN region, and even globally in the field of innovation and technology.
