主席  
陈细明, BBS, JP

We are living in an exciting era where society and economy are constantly being reshaped by breakthroughs in I&T. Hong Kong's I&T sector has been growing on the back of supportive Government policies designed to further boost the city's digital capabilities, and with plentiful opportunities emerging locally and across the Greater Bay Area, Chinese Mainland and Asia, Cyberport has continued striving to help transform Hong Kong into a global I&T hub.

Without a doubt, the most consequential development in I&T today is the lightning-fast rise of AI. As Hong Kong's digital tech hub and AI accelerator, our mission is to help spur the high-quality growth of the digital economy through cutting-edge advances like AI and Web3.0. We currently host over 400 start-ups specialising in AI and big data, regularly facilitating collaborations to find synergies in areas such as computing power development, large model construction, algorithms, data science and industry applications. In December 2024, we were proud to launch the **AI Supercomputing Centre (AISC)**, which is helping us build a comprehensive AI ecosystem, attract top companies and talent from around the world, and capitalise on the city's strengths in fundamental research and internationalisation en route to transforming the city into an international centre for AI and I&T. We are also supporting Government initiatives for additional investment in I&T, developing new quality productive forces, and supporting digital transformation of companies – including small and medium enterprises (SMEs) – to fuel growth at all levels of the economy.

我们身处于一个令人振奋的时代，社会及经济都因为创科的急速发展而不断重塑。政府致力提升香港数码科技及创科产业的发展；而随着香港、粤港澳大湾区、中国内地及亚洲涌现大量机遇，数码港亦持续奋力协助香港转型成为国际创科中心。

In addition, Hong Kong remains one of the world's best and freest places to do business, with strong rule of law and the benefit of "one country, two systems". In 2024-2025, we continued leveraging the city's dual role as a "super-connector" and "super value-adder" to benefit the I&T sector and the wider economy. We also successfully continued nurturing start-ups, attracting funding and investment, enhancing and expanding Hong Kong's I&T ecosystem, and driving the integration of new and traditional economies to lay a robust foundation for future growth and prosperity.
