**Cyberport Congratulates Mininglamp Technology on HKEX Listing**  
**Following Growth Journey at Cyberport**  
*Establishing International Headquarters to Deepen R&D Breakthroughs*  
*Leading Global Markets with Cutting-Edge Technology*

**Hong Kong, 3 November 2025** – Cyberport congratulates **Mininglamp Technology** (Stock Code: 2718.HK) on its successful listing on the Main Board of The Stock Exchange of Hong Kong Limited (HKEX) following its establishment in Cyberport. This marks its transition from a large-model unicorn to the 13th listed company in the Cyberport community. This milestone will facilitate research and development (R&D) breakthroughs in three key technological areas: "Multimodal Data Intelligence", "Enterprise-level Knowledge Graphs", and "Data Privacy", further enriching its portfolio of enterprise-level data intelligence application software products and establishing a solid foundation for global market expansion.

Founded in 2006, Mininglamp Technology leverages AI core technologies and industry insights to provide data intelligence products and solutions to domestic and international enterprises. Its user base encompasses 135 Fortune Global 500 companies globally. The company currently holds 2,322 patents and 596 patent applications, and has received over 460 domestic and international awards, establishing itself as a leading enterprise-level proprietary large model and data intelligence company in China. The company has strong technological innovation capabilities. Its HyperGraph Multimodal Large Language Model received the Best Paper Nomination at ACMMM2024, achieving technological breakthroughs in predicting users' subjective emotional responses by integrating non-standard modal data such as EEG and eye-tracking; its proprietary GUI large model Mano ranks first on both OSWorld and Mind2Web leaderboards, leading in global proprietary large model technology competitions.

**Simon Chan, Chairman of Cyberport**, stated: "We are honoured to witness MiningLamp Technology successfully listed on the Hong Kong Stock Exchange after establishing itself at Cyberport, fully demonstrating our unique strengths as a 'super connector' and 'super value-adder'. With Mininglamp Technology's establishment of its international headquarters in Cyberport, creating a global AI technology innovation centre and business service platform, we believe this will further empower industries through technological innovation and connect with the world, injecting new momentum into local employment, AI talent development, and industrial upgrading, jointly writing a new chapter in AI technology development. As Hong Kong's digital tech hub and AI accelerator, Cyberport will continue to attract high-potential domestic and international enterprises, providing comprehensive support and assistance, creating international platforms for them, gathering global

innovation resources, and propelling Hong Kong toward becoming an international innovation and technology (I&T) and AI hub."

**Minghui Wu, Founder, CEO and CTO of MiningLamp Technology**, stated: "Hong Kong is a vital hub connecting China to the world, and it has provided MiningLamp with a global stage. This world needs more connections—between humans and AI, and among AI systems themselves—requiring greater interconnectivity and mutual trust. Listing is not an endpoint, but a new beginning. We will continue to increase our R&D investment, leveraging data intelligence technology to empower enterprises for efficient operations and accelerated innovation. Together with Cyberport and global partners, we will co-create a trustworthy and promising future in the AI era!"

Cyberport actively collaborates with HKSAR Government in attracting enterprises and investment, leveraging Hong Kong's unique advantage of having connections to both the Chinese Mainland and the world. To date, Cyberport has successfully attracted over 30 listed companies, unicorns, and soonicorns from both domestic and overseas markets, with more than 20 selected as strategic enterprises of the HKSAR Government. Some enterprises have successfully achieved listings within six months of in half a year after landing in Cyberport. This convergence of innovation capital, technology, and talent drives R&D and application transformation across various cutting-edge technology fields spanning fintech, smart living, and digital entertainment, while creating local innovation jobs and bolstering talent support and economic output. Currently, the Cyberport community brings together 13 listed companies and 10 unicorn enterprises. Moving forward, Cyberport will continue to leverage its influence and unique advantages in aggregating global innovation resources, focusing on introducing more flagship innovation and technology enterprises through various programs, enhancing Hong Kong's competitiveness in technological innovation R&D and internationalization, driving the development of the "Headquarters Economy", and propel the city toward its vision of becoming an international I&T hub.

**About Hong Kong Cyberport**

Wholly owned by the Hong Kong Special Administrative Region (HKSAR) Government, Cyberport is Hong Kong's digital tech hub and AI accelerator, with a vision to empower industry digitalisation and intelligent transformation, to promote digital economy and AI development, and to foster Hong Kong to be an international AI, innovation and technology (I&T) hub. Cyberport gathers over 2,300 companies, including 13 listed companies and 10 unicorns. One-third of onsite companies' founders come from 26 countries and regions, while Cyberport companies have expanded to over 35 global markets.

Cyberport, with Hong Kong's largest AI Supercomputing Centre and AI Lab as the engine, has been building the AI ecosystem with industry-leading AI companies and over 400 AI and data science start-ups. Through development of tech clusters, namely AI, data science, blockchain and cybersecurity, Cyberport empowers industries across smart city and government, banking and finance, digital entertainment, culture and tourism, healthcare, education and training, property management, construction, transportation and logistics, green environment and more, while hosting Hong Kong's largest FinTech community. Commissioned by the HKSAR Government, Cyberport has implemented proof-of-concept and sandbox schemes, subsidisation for digital tech adoption, industry tech training and start-up incubation, to drive technology R&D, translation and commercialisation, thus propelling digital transformation and intelligent upgrade across industry and society.

Also as "State-level Scientific and Technological Enterprise Incubator" and Hong Kong's key incubator, Cyberport supports entrepreneurs with funding and office space, extensive networks of enterprises, investors, technology corporations and professional services for business growth and expansion to Chinese Mainland and overseas markets, all-round facilitation for landing in Hong Kong, talent attraction and cultivation, ready as a launchpad to take start-ups in any stages of development to the next level.
