Cyberport Congratulates Incubatee Zhongke WengeAI (D2 Intelligence) on HKEX Listing, Reaching HK\$ 19.1 Billion Market Cap

Raises Approximately HK\$900 Million to Empower Industrial Upgrading with Decision Intelligence, Transforming New Quality Productive Forces into Greater Economic Value

Hong Kong, 26 June 2026 – Cyberport congratulates one of its leading enterprises, Zhongke WengeAI (D2 Intelligence, Stock Code: 01956.HK), a leading enterprise-level artificial intelligence (AI) and decision intelligence company in China, on its successful listing on the Main Board of The Stock Exchange of Hong Kong Limited (HKEX) today, with market capitalization over HK\$19.1 billion and raises approximately HK\$900 million. The listing marks yet another milestone in Hong Kong's growing AI ecosystem with an AI leading enterprise leveraging Hong Kong as a platform to connect with the international capital market. It injects fresh momentum into the city's AI and innovation and technology (I&T) development, creating high-quality I&T opportunities and contributing to the growth of headquarters economy. The milestone also highlights the Hong Kong's unique role as an international financial centre and “super-connector” and “super value-adder”, while demonstrating Cyberport's continued efforts as Hong Kong's digital technology hub and AI accelerator in nurturing AI leading enterprises, facilitating capital access and global expansion, and driving Hong Kong's vision to become an international I&T centre and AI hub.

Simon Chan, Chairman of Cyberport, said: “We are delighted to witness Cyberport's leading enterprise Zhongke WengeAI successfully complete its listing on the Main Board of the HKEX, demonstrating Hong Kong's unique advantages of enjoying strong support of the Motherland and being closely connected to the world, and aligning with the nation's strategic direction of advancing the digital economy and AI. As a leading enterprise-level AI and decision intelligence company in China, Zhongke WengeAI's establishment at Cyberport and its leveraging of Hong Kong as an international gateway exemplify the city's pivotal role in supporting the country's development needs and connecting with global markets.

As Hong Kong's AI accelerator, Cyberport brings together over 2,300 companies, including more than 500 AI companies, and is home to Hong Kong's first and largest AI Supercomputing Centre, fostering AI innovation and industrial application. Looking ahead, Cyberport will continue to align with the country's innovation-driven development strategy, attract more leading AI enterprises to establish a presence and list in Hong Kong, bring together technology, talent and capital, drive the translation of research outcomes, and support Hong Kong's development into an international I&T centre and AI hub.”

Dr. Rocky Cheng, CEO of Cyberport, said: “We warmly congratulate Zhongke WengeAI, a Cyberport incubatee, on its successful listing on the Hong Kong Stock Exchange, marking a significant milestone in the development of AI enterprises. With a market capitalisation surpassing HK\$ 10 billion following its listing, the achievement also underscores the company's continued breakthroughs in AI innovation and commercial applications, and the

strong recognition it has received from the capital markets. With its long-standing focus on decision intelligence, Zhongke WengeAI continues to inject new momentum into data-driven business models and the intelligent transformation of various industries.

Cyberport is committed to building a more robust AI ecosystem to empower smart transformation across society and industries. Through diversified support and cross-sector collaboration platforms, we help AI companies accelerate the commercialisation of their technologies, enhance their fundraising capabilities, and expand into overseas markets. Looking ahead, we will continue to strengthen AI ecosystem development and support the translation of cutting-edge AI technologies into diverse application scenarios, fostering deeper integration between technology and industry. We will also support AI enterprises in capturing opportunities in the 'AI+' era, injecting sustained momentum into Hong Kong's development as an international AI hub."

Dr. Waley Wang, Chairman of Zhongke WengeAI, remarked: "The successful listing on HKEX marks an important milestone in Zhongke WengeAI's development journey. We sincerely thank the HKSAR Government and Cyberport for their continued trust and support. Hong Kong's open, professional and globally connected innovation ecosystem provides a strong foundation for AI companies to establish, scale and expand globally. Since D2 Intelligence established its presence in Hong Kong, Cyberport has provided valuable support in industry collaboration, resource connection and ecosystem integration, enabling Zhongke WengeAI to more effectively integrate into Hong Kong's I&T ecosystem and the Greater Bay Area innovation landscape. Hong Kong serves as our window to the world, while Cyberport serves as a bridge connecting innovation with industry. Looking ahead, Zhongke WengeAI will continue to advance decision intelligence, driving the evolution of AI from information generation towards deeper analysis, reasoning and decision support. Leveraging Hong Kong as an international gateway, we will accelerate our global expansion, enabling AI innovation originating from China to empower more industries and organisations worldwide, and contributing to the continued growth of the global AI ecosystem together with Hong Kong."

Built on the long-term research foundation of the Chinese Academy of Sciences (CAS) system, Zhongke WengeAI has been dedicated to advancing complex data analysis and AI-powered decision-making. The company has independently developed its decision intelligence operating system DIOS, establishing full-stack AI capabilities covering data, ontology, models, agents and decision execution. Serving high-complexity scenarios across public services, media and communications, finance, energy and scientific research. Zhongke WengeAI enables client organisations to enhance data insights, risk assessment, operational efficiency and decision support. In 2025, the company ranked first in China's enterprise-level decision intelligence market by revenue and served more than 650 clients.

Since Zhongke WengeAI established its presence at Cyberport and launched D2 Intelligence in 2024, Cyberport has leveraged Hong Kong's unique advantages as an international financial centre and I&T hub to support the company's growth through industry collaboration, ecosystem connectivity, brand promotion and market expansion. These efforts help D2 Intelligence accelerate its taking root in Hong Kong, integrating into the local I&T ecosystem, strengthening the connection with the Greater Bay Area, and expanding its reach into international markets.

As Hong Kong's digital technology hub, AI accelerator, and entrepreneurial incubator, Cyberport has aligned with the HKSAR Government's investment promotion strategy and leveraged Hong Kong's unique advantages of connecting the Chinese Mainland and global markets to attract more than 30 listed companies, unicorns and soonicorns from Hong Kong and other places. Some of these enterprises have successfully completed listing in Hong Kong within six months of establishing operations and have been selected as strategic enterprises by the HKSAR Government. In 2020, Cyberport was also recognised by the Ministry of Science and Technology as a "State-level Scientific and Technological Enterprise Incubator". With the addition of Zhongke WengeAI, the Cyberport community now houses 25 listed companies and nine unicorns. Looking ahead, Cyberport will continue to attract more leading I&T enterprises through various initiatives, fostering an environment supported by substantial capital, talent, and technological to drive the high-quality development of the I&T sector and digital economy. Through strengthening Hong Kong's I&T competitiveness and international connectivity, Cyberport will further promote the growth of a headquarters economy and contribute to Hong Kong's vision of becoming an international I&T hub.

About Hong Kong Cyberport

Wholly owned by the Hong Kong Special Administrative Region (HKSAR) Government, Cyberport is Hong Kong's digital tech hub and AI accelerator, with a vision to empower industry digitalisation and intelligent transformation, to promote digital economy and AI development, and to foster Hong Kong to be an international AI, innovation and technology (I&T) hub. Cyberport gathers over 2,300 companies, including 25 listed companies and 9 unicorns. One-third of onsite companies' founders come from 27 countries and regions, while Cyberport companies have expanded to over 35 global markets.

Cyberport, with Hong Kong's largest AI Supercomputing Centre and AI Lab as the engine, has been building the AI ecosystem with industry-leading AI companies and over 500 AI and data science start-ups. Through development of tech clusters, namely AI, data science, blockchain and cybersecurity, Cyberport empowers industries across smart city and government, banking and finance, digital entertainment, culture and tourism, healthcare, education and training, property management, construction, transportation and logistics, green environment and more, while hosting Hong Kong's largest FinTech community. Commissioned by the HKSAR Government, Cyberport has implemented proof-of-concept and sandbox schemes, subsidisation for digital tech adoption, industry tech training and start-up incubation, to drive technology R&D, translation and commercialisation, thus propelling digital transformation and intelligent upgrade across industry and society.

Also as "State-level Scientific and Technological Enterprise Incubator" and Hong Kong's key incubator, Cyberport supports entrepreneurs with funding and office space, extensive networks of enterprises, investors, technology corporations and professional services for business growth and expansion to Chinese Mainland and overseas markets, all-round facilitation for landing in Hong Kong, talent attraction and cultivation, ready as a launchpad to take start-ups in any stages of development to the next level.
