## **Cyberport Welcomes HKSAR Government Appointments to the Board of Directors**

**Hong Kong, 27 March 2026** – Hong Kong Cyberport Management Company Limited (Cyberport) welcomes the HKSAR Government’s appointment of three new Directors and the reappointment of six serving members to the Board of Directors, for the term from 1 April 2026 to 31 March 2028.

The three newly appointed Directors are Professor Cheung Chak-chung, Herbert Hui Leung-wah and Johnson Kong Chi-how. The six re-appointed Directors are Simon Chan Sai-ming (Chairman), Nicholas Chan Hiu-fung, Erica Ma Yun, Patrick Tsang On-yip, Dr Maggie Tsoi Tsz-shan and Ken Wong Kin-hang.

**Simon Chan, Chairman of Cyberport**, stated: “I would like to express my sincere gratitude to the HKSAR Government for the new appointments and reappointments of Cyberport’s Board of Directors. I look forward to working closely with fellow Directors to continue advancing our public mission of fostering innovation and entrepreneurship, building on the solid foundation accumulated over the years, and fulfilling our role in connecting the Mainland and the world. The Board members possess diverse professional perspectives and extensive industry experience. They will support Cyberport in deepening the development of AI and emerging technology industries under the national ‘15th Five-Year Plan’ and the HKSAR Government’s innovation and technology (I&T) policies, driving new quality productive forces and attracting more enterprises and talent to settle in Hong Kong, thereby contributing to the development of Hong Kong as an international I&T hub.”

Simon Chan added, “I would also like to take this opportunity to express my sincere gratitude to the outgoing Directors, Professor Christopher Chao Yu-hang, Dr Michael Leung Kin-man and Ivy Cheung Wing-han, for their valuable contributions over the past six years in advising on the strategic development and governance of Cyberport.”

For the HKSAR Government’s official announcement on the appointment of Cyberport’s Directors, please refer to [this link](#).

**About Hong Kong Cyberport**

Wholly owned by the Hong Kong Special Administrative Region (HKSAR) Government, Cyberport is Hong Kong's digital tech hub and AI accelerator, with a vision to empower industry digitalisation and intelligent transformation, to promote digital economy and AI development, and to foster Hong Kong to be an international AI, innovation and technology (I&T) hub. Cyberport gathers over 2,300 companies, including 17 listed companies and 8 unicorns. One-third of onsite companies' founders come from 27 countries and regions, while Cyberport companies have expanded to over 35 global markets.

Cyberport, with Hong Kong's largest AI Supercomputing Centre and AI Lab as the engine, has been building the AI ecosystem with industry-leading AI companies and over 500 AI and data science start-ups. Through development of tech clusters, namely AI, data science, blockchain and cybersecurity, Cyberport empowers industries across smart city and government, banking and finance, digital entertainment, culture and tourism, healthcare, education and training, property management, construction, transportation and logistics, green environment and more, while hosting Hong Kong's largest FinTech community. Commissioned by the HKSAR Government, Cyberport has implemented proof-of-concept and sandbox schemes, subsidisation for digital tech adoption, industry tech training and start-up incubation, to drive technology R&D, translation and commercialisation, thus propelling digital transformation and intelligent upgrade across industry and society.

Also as "State-level Scientific and Technological Enterprise Incubator" and Hong Kong's key incubator, Cyberport supports entrepreneurs with funding and office space, extensive networks of enterprises, investors, technology corporations and professional services for business growth and expansion to Chinese Mainland and overseas markets, all-round facilitation for landing in Hong Kong, talent attraction and cultivation, ready as a launchpad to take start-ups in any stages of development to the next level.
