Over 20 Cyberport Community Companies Showcase at Asian Financial Forum Cyberport Partners with LianLian Global to Drive FinTech Innovation

Hong Kong, 27 January 2026 - As Hong Kong's largest FinTech hub, Cyberport once again served as the FinTech Partner of the **Asian Financial Forum (AFF)**, participating for the tenth consecutive year in this premier annual financial event. Held on 26-27 January in Hong Kong under the theme "**Co-creating New Horizons Amid an Evolving Landscape**", the Forum attracted over 3,600 participants from more than 60 countries and regions. This year, over 20 Cyberport community companies showcased their innovations at the "**FintechHK Startup Salon**," while six companies pitched their cutting-edge solutions during the "**Project Investment Sessions**" to global investors and business leaders, demonstrating the vitality and dynamism of Hong Kong's FinTech ecosystem.

Ir Eric Chan, Chief Public Mission Officer of Cyberport, said, "Cyberport is participating in the Asian Financial Forum for the tenth consecutive year, having witnessed Hong Kong's FinTech ecosystem soar from its nascent stages into a thriving hub of innovation. This year, our community companies are presenting their solutions in diverse formats, showcasing both the creativity driving Hong Kong's FinTech development and its strong international connectivity. As artificial intelligence (AI) rapidly transforms payments and cross-border finance, Cyberport—as Hong Kong's digital tech hub and AI accelerator—will continue to serve as a 'super connector,' bridging startups, investors, and global partners. We remain fully committed to helping our community seize new opportunities, advance the adoption of innovative solutions, and further strengthen Hong Kong's position as a leading international FinTech hub."

Building the Cornerstone of the AI Economy and Strengthening Cross-border Payment Infrastructure

Committed to building a robust financial foundation for the "AI Economy," Cyberport is showcasing community achievements in FinTech and AI while co-hosting a thematic seminar titled "**Building the Financial Stack for the AI Economy: From Complex Billing to Wealth Management**".

This session, moderated by **Victor Yim, Head of Artificial Intelligence and Data Science** at Cyberport, features lead partner **LianLian Global** alongside community members **Finloop** and **Waffo**. It delves into how payment infrastructure can evolve into a "digital corridor" that seamlessly connects global markets. **Michele Fung, General Manager of LianLian Global**, introduced the LianLian Global Payout Service (LGPS), illustrating how it

streamlines market connectivity and effectively overcomes the cost and speed limitations of traditional cross-border payments. LianLian Global also leverages AI to optimise smart operations and payment services, aims to explore automated FX solutions, and enables intelligent routing to enhance efficiency and connectivity. She stressed that amidst the rapid development of the digital economy, payment infrastructure has evolved far beyond a simple transaction tool into a strategic foundation that serves as the cornerstone for connecting global markets. **Jeffery Tong, Chief Product Officer of Finloop**, and **Steve Shen, Chief Business Officer of Waffo**, explored AI's role in foreign exchange automation and smart routing, demonstrating how these technologies boost transaction speed, reliability, and overall efficiency to deliver a more connected and effective cross-border payment ecosystem for investors and business leaders worldwide.

Showcasing Diverse Innovative and Connecting Global Capital

More than 20 Cyberport community companies took part in the “**FintechHK Startup Salon**”, showcasing solutions spanning AI, RegTech, and digital assets. Highlights include **Votee AI**, which drives enterprise adoption of Generative AI; and **Dyna.ai**, offering AI-powered retail solutions.

In the “**Project Investment Sessions**”, six Cyberport community companies delivered dedicated roadshows to connect directly with global investors. Among them were cybersecurity unicorn **CertiK** and global intelligent automation leader **Laiye**, who shared their business and product development plans. Their presentations demonstrated practical AI applications that build more trustworthy, efficient, and user-centric financial services.

As Hong Kong's digital tech hub, Cyberport brings together a vibrant community of over 400 FinTech companies across areas such as digital assets, digital banking, electronic payments, WealthTech, and InsurTech.

Looking ahead, Cyberport will continue collaborating with partners across sectors to drive FinTech innovation and foster a more inclusive, efficient, and sustainable future for the industry.

About Hong Kong Cyberport

Wholly owned by the Hong Kong Special Administrative Region (HKSAR) Government, Cyberport is Hong Kong's digital tech hub and AI accelerator, with a vision to empower industry digitalisation and intelligent transformation, to promote digital economy and AI development, and to foster Hong Kong to be an international AI, innovation and technology (I&T) hub. Cyberport gathers over 2,300 companies, including 17 listed companies and 8 unicorns. One-third of onsite companies' founders come from 27 countries and regions, while Cyberport companies have expanded to over 35 global markets.

Cyberport, with Hong Kong's largest AI Supercomputing Centre and AI Lab as the engine, has been building the AI ecosystem with industry-leading AI companies and over 500 AI and data science start-ups. Through development of tech clusters, namely AI, data science, blockchain and cybersecurity, Cyberport empowers industries across smart city and government, banking and finance, digital entertainment, culture and tourism, healthcare, education and training, property management, construction, transportation and logistics, green environment and more, while hosting Hong Kong's largest FinTech community. Commissioned by the HKSAR Government, Cyberport has implemented proof-of-concept and sandbox schemes, subsidisation for digital tech adoption, industry tech training and start-up incubation, to drive technology R&D, translation and commercialisation, thus propelling digital transformation and intelligent upgrade across industry and society.

Also as "State-level Scientific and Technological Enterprise Incubator" and Hong Kong's key incubator, Cyberport supports entrepreneurs with funding and office space, extensive networks of enterprises, investors, technology corporations and professional services for business growth and expansion to Chinese Mainland and overseas markets, all-round facilitation for landing in Hong Kong, talent attraction and cultivation, ready as a launchpad to take start-ups in any stages of development to the next level.
