

# Hong Kong's Digital Tech Hub & AI Accelerator

**C** Your Springboard to Success

[www.cyberport.hk](http://www.cyberport.hk)

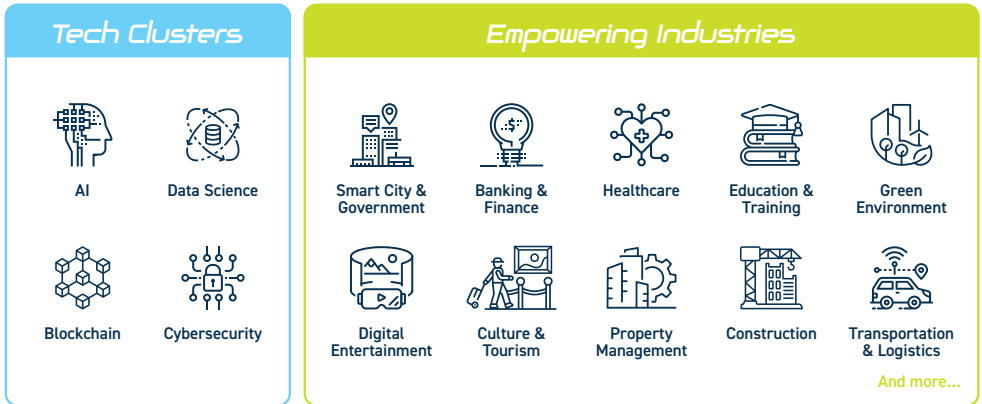

**Cyberport** is Hong Kong's digital tech hub and AI accelerator, with a vision to empower industry digitalisation and intelligent transformation, to promote digital economy and AI development, and to foster Hong Kong to be an international AI, innovation and technology (I&T) hub.

### *Strategic Focuses*

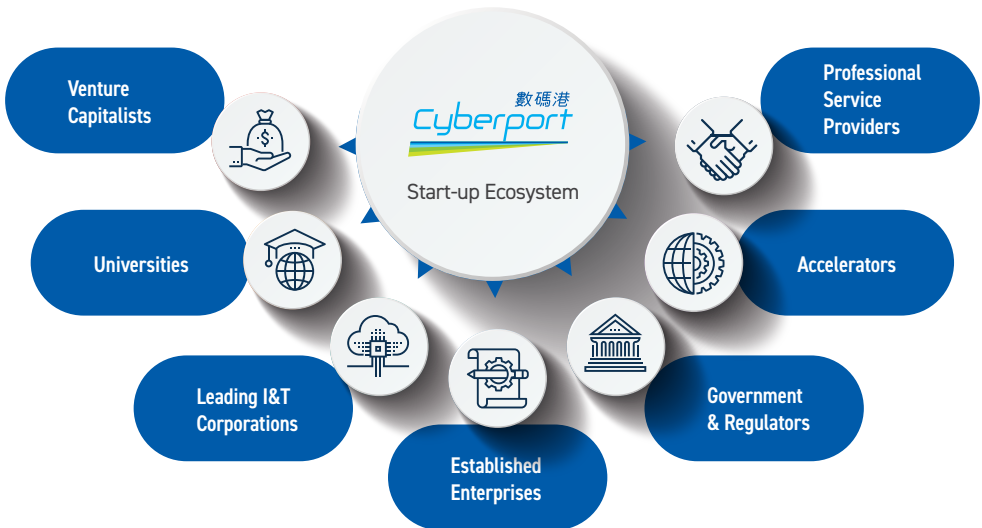

-  Empowering Digitalisation and Digital Innovation in Industries
-  Accelerating AI Ecosystem Development and Industry Adoption
-  Supporting the Development of Hong Kong's Digital Economy

Through tech clusters of AI, data science, blockchain and cybersecurity, Cyberport empowers industries across smart city and government, banking and finance, digital entertainment, culture and tourism, healthcare, education and training, property management, construction, transportation and logistics, and green environment and more.

## Comprehensive Ecosystem for Innovation & Entrepreneurship

Cyberport works closely with key stakeholders including venture capitalists, accelerators, universities, government authorities and regulators, professional service providers and major I&T enterprises to construct a healthy environment for a thriving start-up ecosystem.

*Recognised as the "State-level Scientific and Technological Enterprise Incubator" by the Ministry of Science and Technology*

# Cyberport Community

Cyberport gathers over 2,200 companies, including 5 listed companies and 7 unicorns. One-third of onsite companies' founders come from 26 countries and regions, while Cyberport companies have expanded to over 35 global markets.

# Hong Kong's AI Accelerator - Building a Thriving AI Ecosystem in Hong Kong

With Hong Kong's large-scale Artificial Intelligence Supercomputing Centre (AISC) as the engine, Cyberport is committed to creating a comprehensive AI ecosystem spanning computing power development, general and specialised large language models, model risk assessment, industry application support, governance and ethics research, talent cultivation, while gathering local, Mainland and overseas talents and resources to support innovation, R&D and application of AI across various industries, and promote AI industry development.

## AI Subsidy Scheme

With the \$3 billion from the HKSAR Government, Cyberport was commissioned to implement AI Subsidy Scheme to support local institutions, R&D centres, Government bureaux and departments, AI start-ups, and strategic enterprises to leverage AISC computing resources to achieve scientific research and application breakthroughs with AI.

[Details of AI Subsidy Scheme](#)

# Steering AI Industry Development and Globalisation

Cyberport has gathered over 350 start-ups specialising AI and data science, and attracted leading AI companies from Mainland and overseas such as China Year, D2 Intelligence, LAIPIC, Suanova, and established partnerships with major AI corporations such as Baidu, Huawei, Cisco and Inspur Cloud.

By integrating their capabilities in AI development, Cyberport's AI community promotes innovation, R&D and application of AI. The landing companies also bring in funds, technology and talent to Hong Kong to develop their international headquarters, with the aim of internationalising their AI products and services to drive business globalisation through Hong Kong's international platform.

## International Platform to Showcase Innovative Technologies

Cyberport AI Lab marshals R&D capabilities of AI ecosystem partner companies, providing an interactive space for showcasing AI solutions and launching service products. It offers a platform for AI ecosystem partners and enterprises to experience various AI tools, hardware and language models, collaboratively exploring product innovation and technology integration for application in varied industries and scenarios. This promotes translation of innovative technologies, driving digital economy and smart city development through new quality productive forces.

## Cyberport 5 - Future I&T Landmark

Set to be completed in 2025, the infrastructure offers a gross floor area of around 66,000 sqm, and provides offices and co-working spaces, a data service platform, a multifunction hall, smart office facilities and ancillary facilities, accommodating more I&T enterprises and showcasing their technology applications. Meanwhile, the waterfront park will be enhanced with improved green landscape, smart and pet-friendly facilities, allowing the public to share a quality living brought by technology innovations and to build a harmonious and inclusive community together.

# Hong Kong's Key Incubator

Cyberport fully backs up enterprising talents throughout the entrepreneurial journey, from start-up nurturing, seed funding, product commercialisation to business expansion and investment matching.

## A Springboard to Success for Digital Tech Entrepreneurs

Cyberport supports entrepreneurs as a springboard to success, by:

- connecting to established enterprises and industries in Hong Kong for business growth and internationalisation;
- connecting to investors and funds from local, Mainland China and overseas; and
- connecting to the Mainland Chinese & overseas markets incl. the GBA, the Middle East, ASEAN, and the Belt and Road for market expansion.

# Realise Your Entrepreneurial Dreams with Cyberport

Through a bracket of targeted incubation programmes, Cyberport caters specifically to priority needs for entrepreneurship in different development stages, ranging from talent training, seed funding, go-to-market assistance to investor matching.

## Cyberport Creative Micro Fund (CCMF) - Hong Kong Programme

HK\$100K grant to support innovative ideas and early-stage start-ups development over a 6-months project period to become venture and move forward to incubation

## Cyberport Incubation Programme (CIP), including Cyberport Incubation Programme for Smart Living Start-ups

Up to HK\$500K and HK\$200K on-site rental subsidy, financial assistance, professional advice and strong networks to accelerate your business growth over 24 months

## Cyberport Startup Alumni Association (CSAA)

Established in 2013, CSAA is formed by graduate companies of Cyberport Incubation Programme (CIP) and Cyberport Creative Micro Fund (CCMF). CSAA aims to offer networking opportunities to start-ups through organisation and participation in wide-ranging business and exchange activities, facilitating start-up growth and promoting developing of the I&T ecosystem.
